

Youtube Trending Videos Analysis

Apoorva Shukla - 04/05/2020

Context

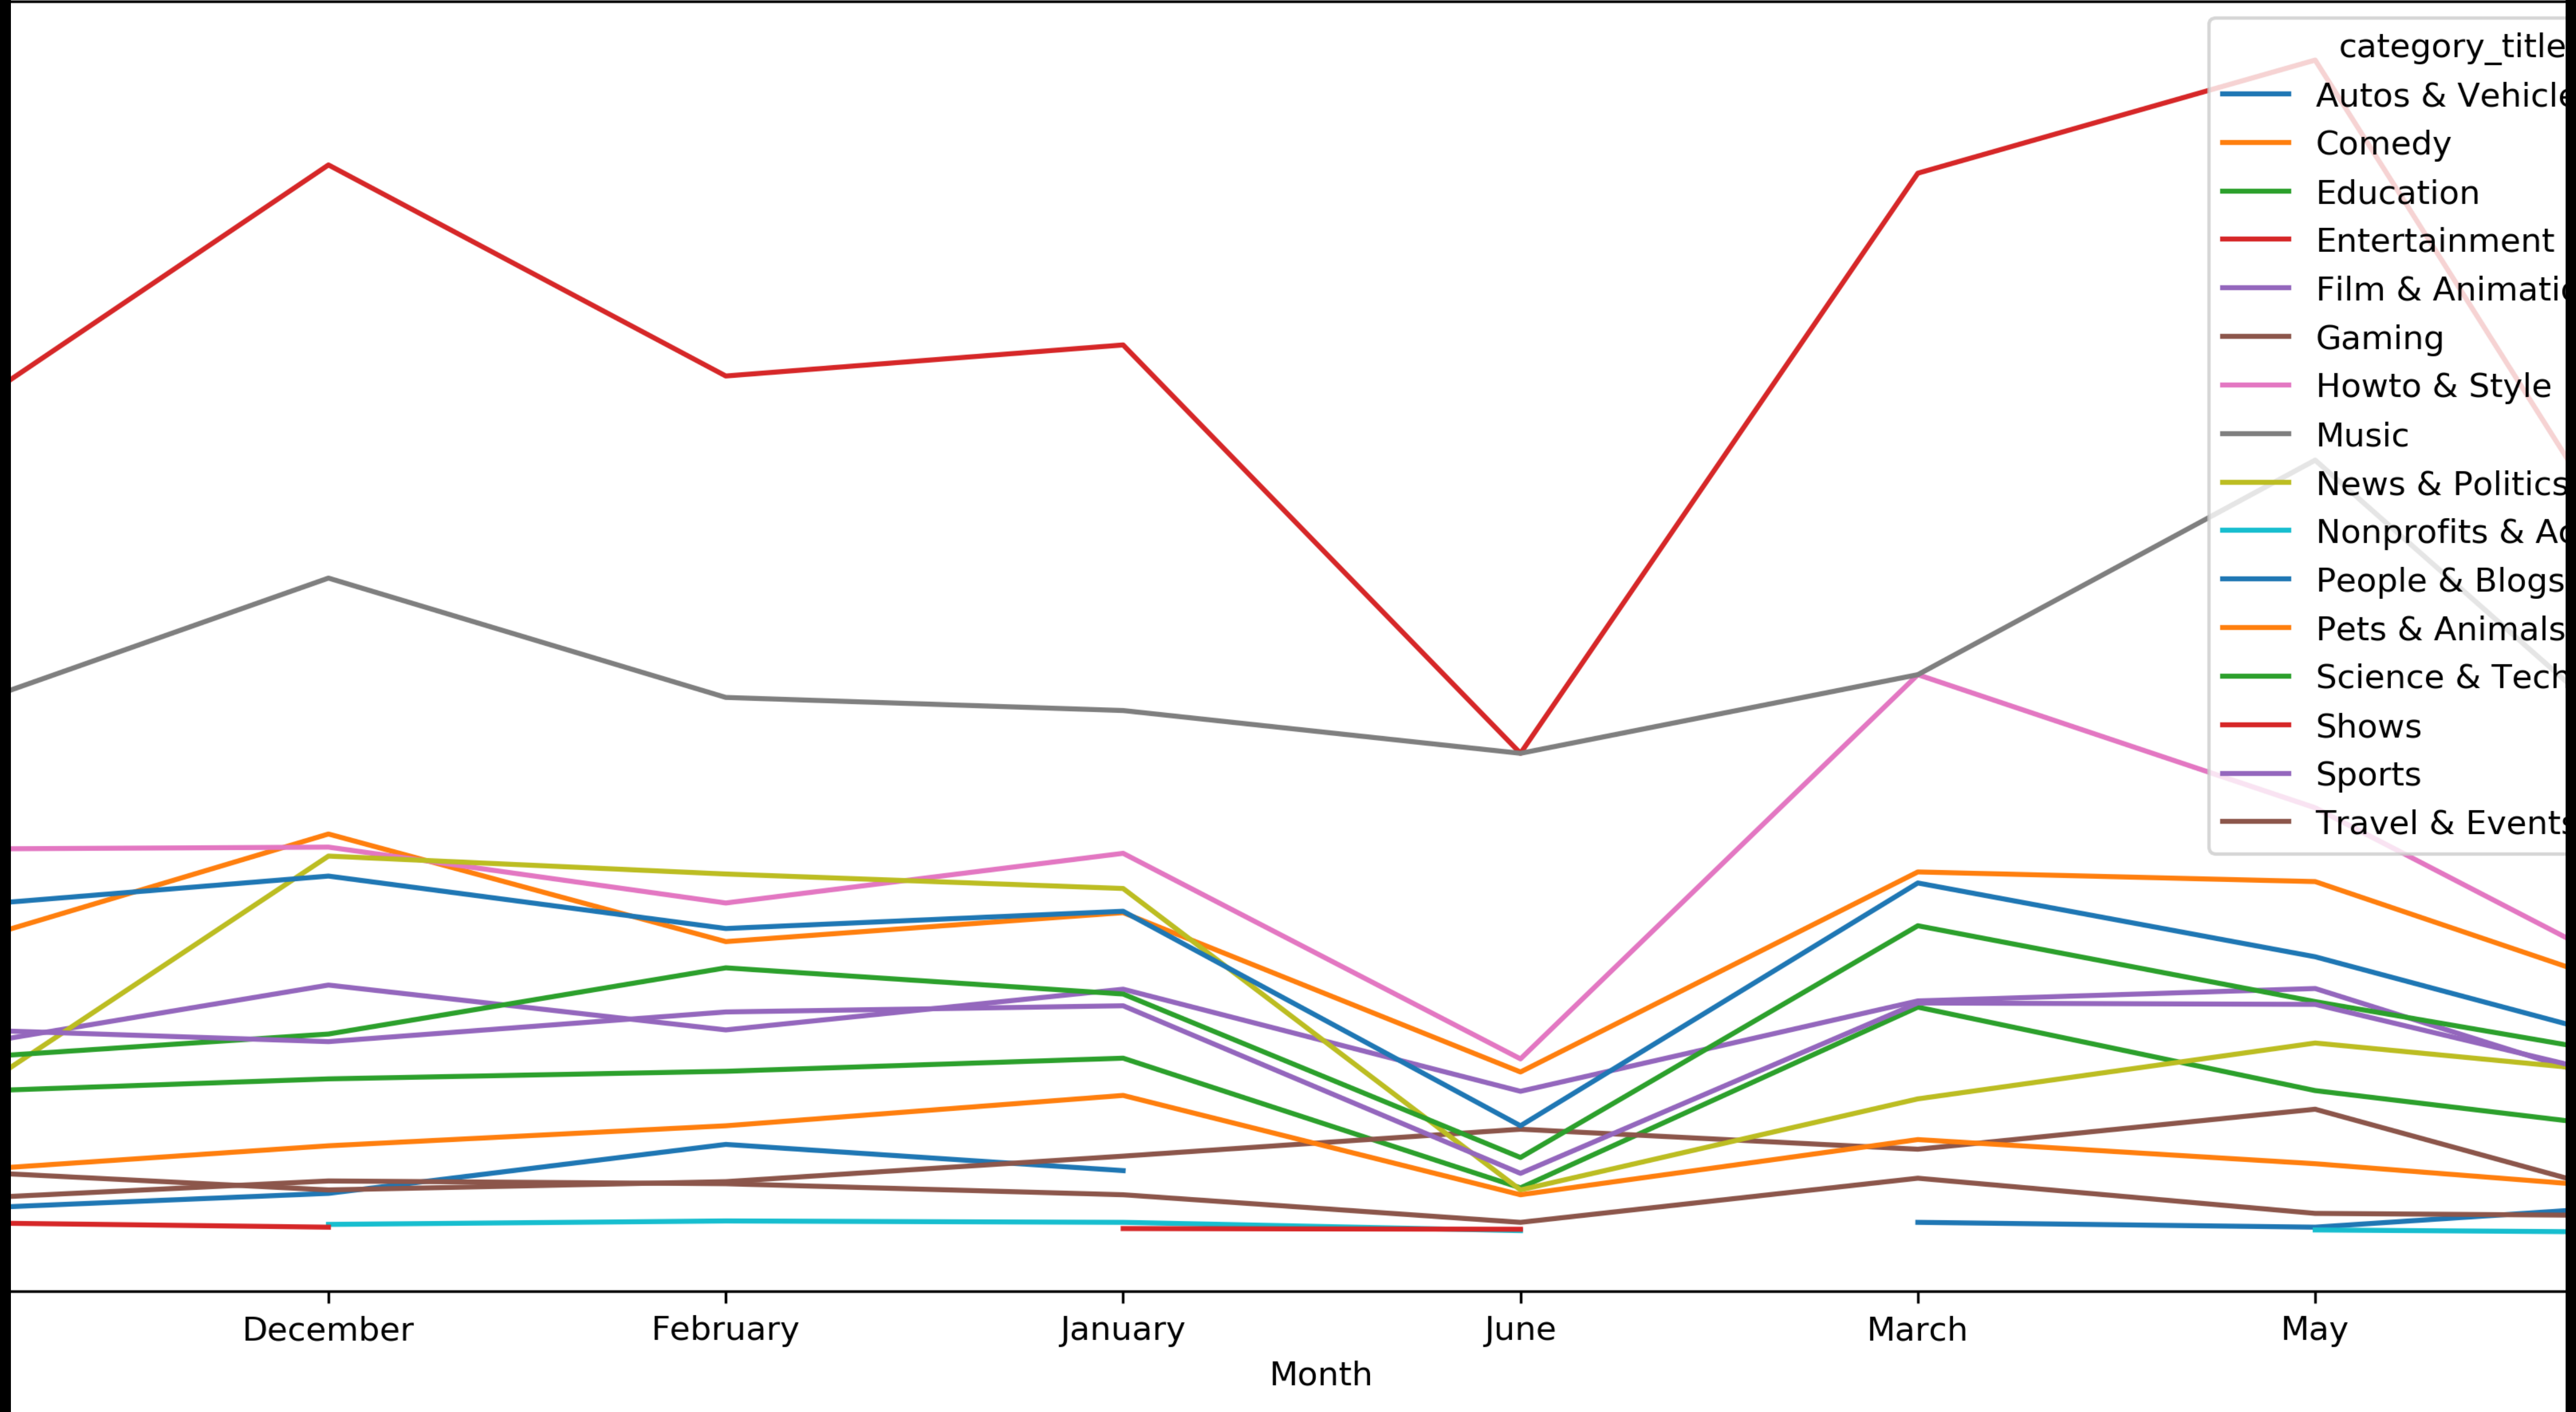

- Youtube maintains a list top trending videos on the platform.
- To determine that, Youtube uses combination of factors like number of views , shares, comment and likes.
- Note that they are not the most viewed overall for the calendar year.

Acknowledgements

- This dataset collected using Kaggle API.
- Kaggle API has its command line tool which can accessed as per requirements.

Agenda

- To determine the most popular category video with respect to the month in the calendar year.

Month
